

Biography:

DJ ACE started DJing when he was 18 years old after taking a few DJ classes and starting to work with a mentor. These early experiences made him realize his passion for music and the DJ experience. They were also very helpful in teaching ACE the fundamentals of DJing.

DJ ACE has been trained and mentored by the best, including, DJ David The Legend Maclsaac, DJ Medley, DJ White Boi, and DJ Dollar, to name a few. He has since had the opportunity to shadow these various people and considers these awesome experiences to have been very helpful in understanding a variety of styles and building his confidence.

DJ ACE has his own quality equipment for use at most events. He has gained experience DJing for several nightclubs, organizations, corporate events, private/special events and weddings. He accepts referrals and inquiries and provides his own professional DJ service for events. DJ ACE spins both audio and video, which gives him the tools he needs to take any venue to the next level!
